# YORKE AND NORTHERN, PROVIDING THE NEXT GENERATION OF RURAL GENERALIST WITH GREAT PRIMARY CARE EXPERIENCE

At Yorke and Northern you can have the best of both worlds with high quality supported rotations in picturesque rural communities, all within 2 hours of Adelaide.

## About Yorke and Northern Rural Doctor Program (YNRDP)

The YNRDP provide both PGY1 and PGY2+ positions across the region, allowing you access to a continual training pathway on your journey to becoming a rural generalist, or the opportunity to gain rural experience to enhance your clinical knowledge and skills.

The YNRDP provides a broad range of unique clinical experiences in both hospital and primary care settings across the region. We will work with you to tailor an educational experience that suits your individual learning needs and objectives.

The Yorke and Northern Local Health Network (YNLHN) provides a wide range of health care services across the Yorke Peninsula, Southern Flinders, and Mid North areas of South Australia. Health care services include accident and emergency, medical inpatients, general practice, day and inpatient surgery, Aboriginal health, obstetrics, anaesthetics, community health, aged care, palliative care and paediatrics.

Trainees will have access to visiting specialties including plastic surgery, cardiology, orthopedics, gastroenterology and more.

You will work closely with specialists, general practitioners and rural generalists in a multi-disciplinary team setting, allowing you to develop close relationships with colleagues and gain hands-on clinical experience in a supportive teaching environment. As part of a small cohort, you will benefit

from individualised support provided by the medical education team. You will be able to challenge yourself with procedural skills only taught to senior trainees in the metropolitan hospitals. The goal is for prevocational doctors to be able to work with supervised autonomy helping them build confidence and skills in preparation for independent practice.

For trainees pursuing a career as a rural generalist or as a general practitioner, the YNRDP enables medical training from internship to advanced skills training through to Fellowship with the Royal Australian College of General Practitioners (RACGP) and/or Australian College of Rural and Remote Medicine (ACRRM).

YNLHN are offering remuneration packages in line with the SA Salaried Medical Officers Award and relocation and travel allowances. Other benefits and options include:

- accommodation and utilities provided for the first 6 months and capped thereafter.
- up to 5-year contracts upon requests
- employment through the single employer model for vocational training allowing for retention of employment benefits.
- job-share and part-time positions.

## AVAILABLE POSITIONS

All roles offer generous opportunities to learn a wide range of practical and procedural skills in a rural setting.

### Internship

Interns have the opportunity for a wide range of clinical experience which meet the new AMC Framework for Prevocational Medical Training.

### PGY2+

The YNRDP provides a full year training and skills experience for TMOs who have completed an internship, and within the new AMC Framework for Prevocational Medical Training, and are working towards completion of their AMC Certificate.

### Rotations

- Emergency Medicine at either Wallaroo or Port Pirie Hospital
- Medical Inpatients at Wallaroo (PGY2)
- Obstetrics at Port Pirie Hospital (PGY2)
- GP/Obstetrics at Kadina
- GP/ED/Procedural in Crystal Brook and nearby hospitals.
- GP/ED/Anaesthetics at Jamestown and neighboring towns.
- ED/Procedural based at Clare
- GP/Medical inpatients working at Port Pirie Terrace Clinic and Port Pirie Medical Ward.

- Emergency/GP/Inpatients/ Aboriginal Health working across Maitland Hospital, Medical HQ Ardrossan and Point Pearce Aboriginal Health Clinic.
- Surgery at Port Pirie Hospital and Wallaroo Hospital\*

\*Pending SAMET accreditation

### Education

A comprehensive teaching program guarantees consistent procedural skills and simulation training workshops that are enhanced with ongoing education through clinical tutorials, case discussions and local education meetings.

Additional educational opportunities are offered including neonatal life support, ALS2, Rural Emergency Skills Training, Regional Xray License and more.

### Primary Care

The Yorke and Northern region's primary care clinics offer a range of general practice training opportunities for a career in general practice or as a rural generalist.

In addition to providing primary care, many of the GP clinics provide local hospitals with GP obstetric and GP anaesthetic services, clinical cover for emergency presentations and manage in-patient admissions.

## LIFESTYLE

The Yorke and Northern Local Health Network encompasses the Yorke Peninsula, Southern Flinders Ranges, the Mid North, and stunning Clare Valley Wine region. It is a beautiful and diverse area of South Australia. It comprises breathtaking national parks, walking trails, cycling, art and photography, outback camping, four-wheel driving adventures, swimming, snorkeling and a wealth of dining experiences including wineries, breweries, and distilleries. All within a two-hour drive from Adelaide!

The Medical Education Unit encourage trainees to explore the region and integrate into communities, so we are committed to limited overtime, flexible working hours and a focus on wellbeing.
